

INTEGRATED MANAGEMENT SYSTEM POLICY

SPECIALGRAINS focuses on production, processing and commercialization of special crops.

SPECIALGRAINS aims to produce food or raw material for food following safety and quality standards, protecting and preserving the environment and occupational safety and hygiene, contributing to the social setting where the company is located.

To achieve this, the Company General Management commits to comply with this Integrated Management System Policy (of quality, environment, food safety, occupational safety and health):

- ☺ Guaranteeing customers' satisfaction through management and traceability.
- ☺ Optimizing and increasing products, processes and services quality by means of continuous improvement and regular audits.
- ☺ Training and raising awareness among the staff and contracted personnel about food safety, environment, occupational safety and hygiene.
- ☺ Giving priority to the rational use of natural resources in every operation.
- ☺ Comply with legal requirements and other requirements.
- ☺ Maintain effective communication mechanisms with our internal and external public allowing interactivity between the parties involved.
- ☺ Eliminate hazards and reduce risks in occupational health and safety.
- ☺ Investigate the deterioration of health and safety prevention inherent in our activity together with the workers.
- ☺ Commitment to the permanent search for excellence in product quality and food safety.
- ☺ Fulfill the commitments assumed with our clients.

Management, on behalf of Special Grains, communicates this Policy to all its staff and contracted personnel and provides economic and human resources needed to carry out each process.

José Marinucci
General Manager
